INCURSION PROPOSAL

About Us

At Aussie Smart Kids, we love to empower the younger generation with confidence to question their surrounding and how things work. No child is too young to be curious. Sign up for a term with us and we promise to make a difference in the children's lives.

MAKE YOUR OWN BUBBLE EXPERIENCE

LEAD TEACHER

Wominjeka!

Having been in the industry for over 5 years, I love how every child asks over a hundred questions each day about anything and everything. I am a VIT registered teacher with a valid WWCC too. Nothing better than having a teacher who has already been on the floor ratio. I understand how hard it can get to organise STEM activities along with every other task your teacher has. Now, this is where I step in and take over. From bubbles to candle combustion, I have it all sorted out for you.

Here is the best part - You also get a copy of what EYLF outcome each experiment aligns with, so your paperwork is taken care of too.

PRIYA
